## SKID STEER LOADER - HK SERIES

# HK740K / HK750K

# HK760K / HK770K

Skid Steer Loader

**HKN34 Construction Machinery Co., Ltd.**

### Powerful motivator

The renowned brand engine equipped features strong power, ultra-low emission, and higher fuel efficiency. It provides the HKN skid steer loader powerful enough to travel on rough roads. Whether in mud or on hard slopes, the combination of power and a long wheelbase gives greater stability and a smoother ride, so you're ready to tackle any task.

HKN skid steer loaders can provide you with excellent power source in anywhere, anytime.

## Steering clear of obstacles

The HKN static hydraulic drive technology adopted features stable drive and high efficiency and reliability. It delivers four-wheel drive power across two independent, variable transmissions. This gives you counter-rotational steering and allows you to turn in a very tight, complete circle. It makes HKN skid steer loaders manoeuvre obstacles with ease on tight spaces, passageways, construction sites, inside buildings.

## High reliability and firmness

Reasonable and scientific design, rigorous technical requirements and strict assembly standards mean that HKN machine has excellent quality. Our skid-steer loaders are no exception. The serialization design is applied for the frame based on the skid-steer tonnage to realize high structural reliability. All critical structural parts are optimized by finite element analysis to realize reasonable stress distribution. They are durable in rough conditions, so you can handle the toughest jobs.

## Incomparable Multi-Functionalities

The international interchangeable quick-change coupling enables the change of tens of attachments, including sweeper, planer, breaking hammer, and ditcher, rapidly and conveniently.

Overall width	mm	2210
Working width	mm	1738
Brush diameter	mm	660
Brush material	Wire and nylon combined	
Storage capacity	m³	0.55
Motor displacement	ml/r	310
Traveling speed of machine	Km/h	<5
Flow range	Lpm	60-140
Weight	kg	535

Overall width	mm	2095
Working width	mm	1828
Brush diameter	mm	800
Brush material	Wire and nylon combined	
Number of brushes	40±2	
Weight	kg	441

Milling width	mm	460 (Standard)600
Maximum milling depth	mm	150
Flow range	L/min	110-180
Number of milling cutters	68	
System pressure	Mpa	20
Type of milled roads	Asphalt	
Material of cutters	42CrMo	

Operating weight	Kg	900
Recommended flow	L/min	60—120
Working pressure	MPa	20
Motor displacement	ml/r	1250
Maximum torque output	Nm	4000
Cutting radius	mm	600—750
Number of cutters	pcs	12
Output speed	r	50—95
Transport sizes	mm	1400x1200x1500

Maximum digging depth	mm	2191
Maximum working height	mm	2750
Working radius	mm	2883
Bucket capacity	m³	0.04
Gross weight	kg	560
Number of control joysticks	4	

Operating weight	kg	564
Overall length	mm	1680
Working oil pressure	bar	110-140
Flow range	L/min	40-70
Brand of hammer core	Soosan	
Impact frequency	Bpm	500-900
Shank diameter	mm	68
Impact energy	J	700
Pipeline size	mm	2800

# HK740K / HK750K / HK760K / HK770K

Combination-Loaders / Telehandlers

Gross weight	kg	460
Bucket capacity	m <sup>3</sup>	0.48
Overall width	mm	1889
Stretching spacing	mm	718
System pressure	Mpa	20
Clamping force	KN	8.2

Vibratory Roller

Wheel diameter	mm	530
Wheel width	mm	1220
Weight	kg	763
Vibrating force	KN	26
Vibrating speed	Vpm	2600

Trencher

Digging depth	mm	900
Digging width	mm	150
Digging speed	m/min	7
Weight	kg	425

## Safe and Comfortable Operating Environment

The ROPS&FOPS cab and the seat belt, bumper, fire extinguisher, and safety hammer equipped guarantee the personal safety of the operator.

The cab features large space, adjustable seats, and comfortable operations.

The joysticks and the instrument panel are arranged in accordance with ergonomic principles so that the driver can always maintain the best comfort to make operations easier.

The standard double-accelerator control model means that you can use the pedal accelerator or work at preset constant power to save the operation labor.

## Easy maintenance, less downtime

Maximizing uptime gives you the edge when it comes to productivity.

HKN's skid-steer loader is applied with sprocket case of integral structure design and standard high-strength maintenance-free chain.

During the use of this product, no secondary tension is required to reduce the user's downtime due to periodical adjustment of chain.

Pallet Fork

Adjustable fork spacing (max)	mm	1524
Adjustable fork spacing (min)	mm	230
Gross weight	kg	207

Dozer blade

Overall length	mm	910
Overall width	mm	1524
Overall height	mm	627

Auger

Maximum drilling diameter	mm	400/600
Required flow of motor	L/min	60-80
